1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-7, 13 and 18, drawn to an information carrier.

Group 2, claim(s) 8 and 22, drawn to an assembly of an information carrier and a package.

Group 3, claim(s) 9, drawn to a series of information carriers.

Group 4, claim(s) 10-12 and 15-17, drawn to a method for transferring information

Group 5, claim(s) 14, drawn to a method for transferring information

Group 6, claim(s) 19-21, drawn to a method for providing messages.

2. The inventions listed as Groups 1-6 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: they relate to an information carrier, they relate to the combination of such a carrier and a package therefor, they relate to a series of information carriers, all of these encompassing different special technical features. Also, they relate to methods that have different special technical features since they include steps that are not related under a single inventive concept.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
